

A-Z GovBIZ

A-Z GovBIZ is an on-line contact database and search engine that keeps pace with the rapidly changing public sector in Australia. The list consists of over 26000 business contacts, public agencies, committees, bodies and departments in local, state and federal government, university faculties, primary and secondary, TAFE colleges and government funded private organisations.

A-Z GovBIZ provides the most comprehensive government database of decision makers in Australia.

Maintaining an accurate contact database is a challenge for most organisations. The list owner's extensive data resources, powerful search engine and team of experience researchers will deliver an effective government and education contact database to your organisation.

A-ZGovBIZ contains many layers of information to get deep into the data. There are 21 different search criteria to help target find the contacts you are looking for.

Subsets of the database can be split out and offered as separate products. They are;

University Decision Makers

This is a list of approximately 2350 business decision makers in faculties, schools and administration units in university campuses throughout Australia. Contacts include those who pull the purse strings such as Business Managers, Office/Administration Managers, Accountants, heads of Schools and Faculties. The University Decision Makers list will provide a comprehensive coverage of all departments and buyers in universities across Australia.

Local & Municipal Council Decision Makers

This database has over 3485 contacts. It reflects the size and depth of local council organisations which can range between 5 and 700 full time employees. You can select councils by number of employees, metro, country or region. You can also select business decision makers by job function, activity and level of seniority.

High Income Public Servants

Reach 3892 middle managers earning between \$40K - \$75K and 5291 senior managers earning \$75K + at their place of work in local, state and federal government throughout Australia. This list includes name, position, organisation, mailing address, phone, fax and personal email addresses. You can also select contacts by location and job function.

Librarians in the Public Sector

This is a list of 1870 difficult to reach libraries in local, state and federal government and universities. Information includes organisation, mailing address, phone and fax numbers. Some records have email addresses and contact names.

Accountants in Government

A database of 816 accountants, financial controllers, audit managers, finance managers and directors in local, state and federal government. This is a contact database containing name, position, organisation, address, phone, fax, email addresses and number of employees.

Purchasing Officers in the Public Sector

This list reflects 1265 of the cream of purchasing/procurement officers and business managers in the

public sector. Select contacts from 40 industry groups (within government), geographic region or size of organisation.

Chief Executive Officers in Government

A comprehensive list of 1714 CEO's responsible for the overall business management of their government department. Includes CEO, Managing Director, Director-General, General Manager, Chairpersons and Presidents.
