

## Associations

The list (made up from the central incnet database) represents groups of people and/or organisations that have a collective interest and includes business, professional and consumer associations. All records are fully personalised and include business title. The list targets head office and state branches of associations and is made up by the following types.

Professional Associations; Represents organisations whose purposes is to make money such as: Industrial Associations and Employer Groups.

Consumer Associations; The purpose of these associations is related to knowledge, community service or other general collective interests such as: Trade Unions, Research Foundations, Social Services, Sports, Hobbies, Environmental Issues, Cultural Institutions, Religious Organisations, Political Parties, Education and Historical Societies.
