

## Building & Construction Database

This list consists of key personnel responsible for buying and specifying products for construction and building companies, manufacturing, suppliers and distribution. The list consists of subscribers to the following databases:

### Building Product News:

BPN the Architectural and Building magazine delivers the latest and most diverse editorial on building products and materials. The magazine has a strong product focus with in-depth application stories, project overviews, news and articles written by respected industry figures. The magazine is read by architects, builders, project managers, building consultants, contractors, sub-contractors, consulting and civil engineers as well as people who purchase building products, materials or equipment.

### Construction Contractor:

Construction Contractor is a journal offering comprehensive news covering civil and structural works. The magazine is read by contractors in earthmoving, construction and civil engineering, government employees, commercial builders, project developers, consulting engineers, plant and equipment suppliers, marketeers and distributors of equipment and services to the industry.

### Tenders:

This publication provides a comprehensive listing of tenders invited and accepted in Australia. It also covers relevant industry news stories and has industry specific spotlights. Reader of the magazine include construction and building companies, manufacturers, industrial concerns, office equipment suppliers, plant and equipment suppliers and other companies seeking tenders and sub-contract work throughout Australia.
