

Diary & Management Tool Purchasers

Fomerly known as the Debden Diaries list, this list is made up of corporate, professional business people who have purchased diary and office products via mail order.

The Debden range of products range from executive leather diaries, desk sets to office accessories. The products are of the highesty quality and are positioned at the top end of the market.

Compiled and developed through direct mail response mechanisms and telemarketing communications. Reasons for building, developing and updating the list lie within a direct program requirement by the list owner to market to all segments of this base, on a monthly basis, for 6 months of the year.

Approximately 60% of the file is addressed to individuals at their business address and the balance at home. Amost 75% of the file also includes telephone numbers. Records are personalised and include salutation.
