

Entertainment Database

This includes high profile business people who run the Australian Television, Radio, Film and Video Production industries plus all the Technical and Engineering behind the scenes personnel. This database is made up of subscribers to the following publications.

Encore

Encore covers film, television and new media production in Australia. It focuses on major players and projects as well as developments in government policy, financing, technology, exhibition, pay TV and multimedia distribution. Encore attracts many different types of readers including management, creative, government and technical suppliers to the Australian Film, television and advertising production industries.

Encore Directory

A directory of companies within the film, television and video industry in Australia.

Broadcast Engineering News

Australia's leading technology magazine for the TV, radio and recording industries. Its coverage reflects technological and legislative change in areas of duplication, transmission and signal distribution, desktop video and multimedia, video production, professional audio, cable and satellite TV. It provides accurate and independent news and product information for the technical side of operations.
