

Farm Base

FARMbase is Australia's premier farm database. No other database of farmers contains a more complex list of individual records and is so rigorously maintained.

FARMbase contains over 110,000 mailable farm records. The list can be segmented by over 20+ farming categories.

The list is constantly kept maintained by the list owner's team of integrity specialists, call centre staff and programmers within their data management centre. They pay great attention to details ensuring accuracy and reliable data.

Almost all of the data is personalised to the farm address.

::Quantity	110933
::Selections	State Postcode Farm Activity
::Pricing	
Rental	Mailing: \$350.00 per 1000 records
