

Farmers List

This list contains approximately 115,000 farmer names and addresses, many with telephone numbers across Australia.

The list has been compiled from numerous sources including the electoral roll, Yellow Pages, market research, organisation membership lists, rural publications, etc. The majority of names are categorised by farm type.

Records are regularly updated and the list is steadily improving, with some segments and areas better than others.

::Terms & Conditions

List rental costs cover one time usage only. All data is seeded with dummy names to detect unauthorized use and copying in any form is prohibited. Two sample mailing packages will be required for approval by owner.

We require a signed copy of our list rental agreement and order form prior to any order being processed.

Payment is required on delivery of data unless arranged otherwise. 10% GST applies to all Australian Companies.
