

## Financial Planners

A compiled list of Financial Planners on a national basis. This list has been sourced from publicly available data. Extensive research and the combination of a number of sources has created a sophisticated list that can be segmented in a variety of ways.

The list has certified financial planners who are members of the Financial Planning Association

All records are personalised, almost entirely at work addresses. On Average 99% of the file has telephone numbers. The list is updated once per annum in keeping with the availability of source material plus all dead mail on a regular basis.
