Advertising & Media Professionals

Prospects on the Advertising & Media Professionals Speciality List cover the entire spectrum of marketing, media, TV, radio and advertising industries. The list is an extract of InfoBase Business Database.

These well educated, affluent business professionals work in a dynamic, information rich environment where the challenge is to keep on top of the game by keeping on track of the latest advertising and marketing strategies, account moves, people moves and media trends.

Advertising & Media Professionals are ideal prospects for a whole range of products and services including magazine and newspaper subscriptions, professionals development programs, travel and entertainment, telecommunications and computer hardware and software products.
