## Building & Construction Database

This file includes businesses from many areas of the construction industry including building companies and contractors.

This list of the Construction Industry is sourced from the Incnet Database.

The Incnet database is a highly accurate list of over 230,000 key industry contacts, sourced from leading Australian and New Zealand organisations. IncNet focuses on companies with 20+ employees and / or \$10 million in annual revenue.

A strong commitment to accuracy and attention to detail makes the Incnet database one of the highest quality business lists available, for rental or purchase. It has been designed for, and used successfully by, organisations selling high value added products or services.
