Engineering Database

This List consists of Subscribers to the following magazine titles.

Australian Mining

Australian Mining is a leading publication providing the mining and minerals industry in Australia with relevant information on exploration, extraction, minerals processing, mining technology and mine management. It is read by senior management, supervisors and technical staff at coal and mineral mining companies around Australia, both on-site and head office & involved with work ranging from exploration to processing.

Electronics News

EN covers technological trends, new products and policy changes affecting the electronics industry. Its recognised profile as a voice for the industry is continually reinforced through articles by respected industry personnel, engineers and market analysts. The magazine is read by engineers, technical managers, technical officers and people in top management. They work in many different industries including electronic equipment and components, telecommunications, research and defence.

Broadcast Engineering News

This magazine provides accurate and independent news and product information for the technical side of operations in the professional broadcast, video and audio industries.

Construction Contractor

Construction Contractor is a news magazine for the construction industry with articles relating to civil engineering, earthmoving, public works and commercial and industrial building. It is backed by features on industry issues written by experts in the field. The magazine is read by contractors in earthmoving, construction and civil engineering, government employees, commercial builders, project developers, consulting engineers, plant and equipment suppliers, marketers and distributors of equipment and service providers to the industry.
