Informa Conference List

Informa Australia, now made up of IBC Conferences and IIR Conference, provide quality business information through conferences and seminars, training courses, newsletters, magazines, books, directories and electronic data services worldwide.

Each month many events and exhibitions are held throughout Australia. They range from specially commission workshops to annual industry summits. Recently they have convened conferences for a wide range of industries, addressing a full range of current and developing issues such as; telecommunications, public sector management, food, taxation, environment, mining, transport and shipping.

The database is made up of senior executives, decision makers - prospects and conference/exhibition attendees.

The Australian database is personalised and a majority of the records include business title.
