Kompass Business Executives

Kompass Australia is part of the Kompass International group which is regarded as the largest business to business information system in the world. This list was designed to thoroughly cover the manufacturing industry.

Kompass classification enables any companys products and services to be accurately sourced. The Kompass system also indicates how the company participates in the market such as; whether it exports, imports, manufactures, distributes or provides a service. Along with product classification, Kompass prodives a detailed and accurate corporate profile, which includes all the key inforamtion to enhance trade.

Kompass and its related databases are used by and have received endorsements from many of the major trade and business organisations such as; VECCI, Australian Chamber of Commerce, AIG Australian Industry Group, Austrade and Chamber of Commerce NSW & VIC
