Mining Database

Subscribers to Australian Mining Magazine and subscribers across other Reed business magazines.

Australian Mining is a leading publication providing the mining and minerals processing industry in Australia relevant information on explorations, extraction, minerals processing, mining technology and mine management.

It's widely read by senior management, supervisors and technical staff at coal and hard rock mining companies around Australia, both on-site and at head office, involved with work ranging from exploration to processing.

In total there are 9173 records of which 6504 records are personalised. State by state breakdowns below reflect personalised record count.
