School Database

The School Database is a comprehensive integration of all school types Australia wide. It is updated on a regular basis ensuring a high standard of the list.

There are 3 key lists that are consolidated to make up the Schools Database; Victorian Schools Database, National Schools Database and Kindergartens, TAFE's/Universities. This Provides users the opportunity to target all available schools or the flexibility to segment according to their particular requirements.

Victorian Schools Database

Compiled by the Victorian Education Department, this database is designed to meet the needs of users that only require Victorian schools information. The list undergoes major updates on a bi-annual basis.

All government schools (primary, high, K-12 and special) include the name of the Principal and have enrolment numbers. The remaining private schools are not personalised however, a generic title can be inserted in the title field. Enrolment numbers are not available.

The list is available for either rental or purchase (please refer to itemised costs below) and can be provided in any of the following formats;

Cheshire labels (sticky labels)

Excel Format

ASCII comma delimited

National Schools List

Compiled by the Curriculum Corporation, this is the most comprehensive list of Australian schools. It's used constantly by the Curriculum Corporation and undergoes monthly updates. Ideally this database is designed for the user that requires schools on a national basis.

Although records are non personalised a generic title (of any choice) can be inserted in the title field.

The list is available for either rental or purchase (please refer to itemised costs below) and can be provided in any of the following formats;

Kindergartens, TAFE's & Universities

Long sought after list of Kindergartens, TAFE's and Universities. This comprehensive compiled list covers all available kindergartens and further education institutes and universities.

Although records are non personalised a generic title (of any choice) can be inserted in the title field.

The list is available for either rental or purchase (please refer to itemised costs below) and can be provided in any of the following formats;
