## Social Club List

This recently released list is made up of Sydney companies with at least 40 employees with a dedicated Social Club Secretary.

The list provides the name and titles of the Social Club secretary (or equivalent person) responsible for organising employee social functions at business sites.

The list is updated every six months by the list supplier, and although available for several years, it has not been actively marketed and has had limited usage. It responds particularly well to leisure products and has been successfully used by marketers seeking group sales.
