Hospital and Health Services Yearbook

The Hospital and Health Services Yearbook is a database of over 5,700 hospital, aged care and healthcare establishments within Australia and New Zealand including establishments ranging from aged care, public and private hospitals, community care and corporate office details.

The database is refreshed twice a year by an internal research team.

The broad range of search selections available enables us to manipulate the information in numerous ways, tailoring the data to suit your needs. These selections include location, job title, establishment type, services offered, hospital management, type and number of beds.

LIST DETAILS	
Quantity	4,500+
Selections	Area of Responsibility Establishment Type Geographic Hospital Management Services Offered Type and Number of Beds
PRICING	
Deliverability	95%
Lead Time	3 working days
Terms & Conditions	List rental costs cover one time usage only. All data is seeded with dummy names to detect unauthorized use and copying in any form is prohibited. Two sample mailing packages will be required for approval by owner. We require a signed copy of our list rental agreement and order form prior to any order being processed. Payment is required on delivery of data unless arranged otherwise. 10% GST applies to all Australian Companies.
