Frequent Global Travellers

This niche customer list is made up of approximately 18000 people who have either travelled regularly overseas and locally or are interested in doing so.

Initially the customers resorted to advertising in magazines such as Gourmet Traveller, The Age, GEO, The Australian and other leading magazines and newspapers and enquired about active, but not necessarily adventure holidays. The list owner regularly updates and approaches each of their customers with a variety of offers and information regarding travel packages.

Typically this list is made up of people 40+ with a high disposable income. They are seen as frequent international travellers, well educated and discerning with a good understanding of travel. These people prefer hotels to camping and choose walking, cycling, boating, skiing, self-drive holidays with comfort.

Records are all personalised and almost 100% at home address.

LIST DETAILS	
Quantity	19,509
Selections	State Postcode Random Selection Gender
PRICING
