Great Sites - New Zealand & Australia

The Great Sites Australia & New Zealand Survey provides a detailed snapshot of New Zealand & Australia consumer behaviour and purchasing intentions through their quarterly online surveys. Consumers participating in the survey choose how much or how little personal and purchasing information they want to share.

All responses are stored for a period of three months only and as a result all data is up to date and the responses are qualified.

The Great Sites NZ & AU Survey provides a 100% opt-in, permission-based, spam compliant list for email, postal and telephone marketing. No data is fresher, or more responsive.
