High Disposable Income - Prospects Plus

This list contains customers who have been identified as having a high disposable income, making it the perfect list for high value offers and fundraising campaigns.

Sourced from Veda's Consumer Prospect Plus, this list contains accurate contact data and powerful segmentation information which allows the targeting of wealthier prospects that have higher levels of disposable income.

They use unique and dynamic proprietary data sources to continuously validate the accuracy and currency of their consumer prospects, as well as maintaining a very accurate change of address file to minimise dead mail.
